

Health and Safety Plan for Returning to School

The Pennsylvania Department of Education has required that each school district create a Health and Safety Plan which will serve as the local guidelines for all instructional and non- instructional school activities. This plan, following PDE guidelines, is tailored to meet the needs of the South Williamsport Areas School District and the communities we serve. Consultation was provided through UPMC Susquehanna and other local health care providers. As we have seen since March, the pandemic and state directives in response to it, are dynamic. The plan seeks to incorporate enough flexibility to adapt to these changing conditions.

The health and safety of students and staff has always been our first priority. COVID-19 has necessitated a refocus to combating a virus and keeping it out of our schools and community. This plan creates a pathway for students and staff to safely return to school in the midst of this emergency.

We are committed to educating every student every day, but we also recognize that much of the pandemic is beyond our control. To ensure that their education continues, at the start of the school year, every student and teacher will be issued an iPad. These devices, along with expanded wireless connectivity, will ensure that teaching and learning continues whether in-person or working remotely. Students will be engaged in learning every day.

The district's health and safety plan will remain posted to the district web site. Building principals will follow with more detailed back-to-school directions for families and staff.

The district will continue to monitor the effectiveness of the plan throughout the year and make changes as necessary. A Pandemic Response Team of students, staff, and parents, will advise the administration and Pandemic Coordinator on the effectiveness of the plan and recommend changes. Hotlines and direct emails are being added to facilitate communication.

We recognize the reservations of returning to school. The first days will be anxious for all of us. The administration and staff are working hard to ensure that necessary changes are made to keep everyone safe and healthy so the education of students continues.

Sincerely,

Mark Stamm

Dr. Mark Stamm
Superintendent of Schools

Summary

The summary is provided to highlight areas of special interest to families, staff, and students. More detailed information is provided in the individual sections of the plan.

Cleaning and Sanitation:

- The district will follow all CDC guidelines for cleaning and disinfecting. More aggressive measures are being taken also.
- Disinfectant wipes and hand sanitizer will be available where needed beyond normal soap and water.
- Electrostatic spray disinfectants will be used in targeted areas daily and others as needed.

Personal Protective Equipment:

- District will provide a face shield and a cloth face mask for every student and staff.
- Parents and staff are requested to maintain their own supplies of masks, but the district is working to maintain a stock for individuals when needed.
- Hand sanitizing stations are being installed in classrooms and hallways.
- Additional breaks / time will be allowed for handwashing during the day.

Transportation to School:

- To ensure accurate accounting of students on each bus, families will need to tell the district that they will or will not ride the school bus.
- Face coverings are necessary while riding the bus.
- Buses will be disinfected between the AM and PM bus runs and before / after any additional trips.

Arrival and Dismissal from School:

- Parents and staff will be provided resources and asked to screen students / themselves at home for signs of illness before coming to school.
- To alleviate crowds of students, each building will use multiple entry points for arrival and dismissal. Students will be dismissed by groups to avoid congestion in hallways / lobbies.

The School Day:

- Every student and teacher will be issued an iPad to ensure learning continues every day.
- Beginning and end of the school day will remain the same for most students.
- No significant changes are planned to the school year calendar.
- Non-school visitors and non-essential school travel / field trips are restricted.
- Excess furniture has been removed from all classrooms to maximize spacing between desks.

- Facemasks are encouraged but are **not** necessary in classrooms or other spaces where 6 feet of social distancing can be maintained.
- Elementary students will have recess.
- Lunch will be served in the cafeteria. Additional seating / dining areas are now available.
- Facemasks are encouraged but are **not** necessary in dining areas while eating or where 6 feet of social distancing can be maintained.

High-Risk Students and Staff:

- Individual meetings will occur with each family / employee who has underlying health conditions or other factors that need considered.

Health and Safety Plan: South Williamsport Area School District

The Board of Directors, families, staff, and students should be mindful that as long as there are cases of COVID-19 in the community, there are no strategies that can completely eliminate transmission risk within a school population. The goal is to keep transmission as low as possible to safely continue school activities. All school activities must be informed by [Governor Wolf's Process to Reopen Pennsylvania](#).

The Governor has categorized reopening into three broad phases: red, yellow, or green. These designations signal how counties and/or regions may begin easing some restrictions on school, work, congregate settings, and social interactions:

- **Red Phase**: Schools remain closed for in-person instruction and all instruction must be provided via remote learning.
- **Yellow Phase and Green Phase**: Schools may provide in-person instruction after developing a written Health and Safety Plan, to be approved by the Board of Directors and posted on the district's website.

Depending upon the public health conditions in any county within the Commonwealth, there could be additional actions, orders, or guidance provided by the Pennsylvania Department of Education (PDE) and/or the Pennsylvania Department of Health (PA-DOH) designating the county as being in the red, yellow, or green phase. Some counties may not experience a straight path from a red designation, to a yellow, and then a green designation. Instead, cycling back and forth between less restrictive to more restrictive designations may occur as public health indicators improve or worsen.

Given this, the South Williamsport Area School District has made every effort to account for changing conditions in our local Health and Safety Plan to ensure fluid transition from more to less restrictive conditions in each of the phase requirements as needed.

Type of Reopening

Key Questions Considered

- How will we bring students and staff back to physical school buildings, particularly if we still need social distancing in place?
- How did we engage stakeholders in the type of re-opening your school entity selected?
- How will we communicate your plan to our local community?
- Once we reopen, what will the decision-making process look like to prompt a school closure or other significant modification to operations?

Based on Lycoming County's current designation and local community needs, the South Williamsport Area School District will reopen based on the following designations:

GREEN - Total reopen for all students and staff, but some students/families may decide on at-home cyber based learning out of safety/health concern. This format for this will be determined based on the number of families who chose at-home cyber based learning.

YELLOW - Blended learning that balances in-person learning and remote learning through iPads. For older students in grades 7-12, this will be an A / B format on alternating days and continuation of in-person instruction for elementary students in kindergarten through grade six.

RED – Remote learning for all students daily through iPads.

This plan is effective for the 2020-21 school year.

Pandemic Coordinator/Team

The South Williamsport School Board appointed Mrs. Cheryl Schonewolf, School Nurse, as the district's Pandemic Coordinator. To support Mrs. Schonewolf and the administration in the development of this plan, the Superintendent assembled a Pandemic Planning Team. The team consisted of individuals from all school community stakeholders including administration, parents from each building, students, staff, and employee association representatives. The pandemic coordinator, along with advisement from the pandemic team, is responsible for facilitating the local planning process, monitoring implementation of the Health and Safety Plan, and continued monitoring of local health data to assess implications for school operations and potential adjustments to the Health and Safety Plan throughout the school year.

The Pandemic Coordinator, along with the advisement of the Superintendent, will appoint a Pandemic Response Team to assist with the execution of this plan and recommend any necessary changes. The Response Team will consist of the same stakeholder groups from the Planning Team and any additions that are needed.

Pandemic Planning Team

Team Chairs:

Pandemic Coordinator – Mrs. Cheryl Schonewolf
Superintendent – Dr. Mark Stamm

Team Members:

District Administration

Mr. Jesse Smith – HS Principal
Dr. Michele Loomis – Elementary Principal
Mr. Scott Hill – Assistant Principal
Mrs. Kristin Bastian – Director of Special Education
Mr. Bill Reifsnyder – Director of Facilities
Mrs. Jamie Mowrey – Business Manager
Mr. Dwight Woodley – Director of Innovative Learning

Staff

Mrs. Linda Crawley – Paraprofessional / Central Elementary
Mrs. Tara McGlensey – Teacher / RRR Elementary
Mrs. Fran Kropp – Secretary / JR-SR High School
Mrs. Karen Fink – Teacher / Grade 7
Mrs. Jo Ann Kennedy – Teacher / SR High School
Mrs. Brenda Trimble – SWEA Representative

Mrs. Lucy Steinbacher – SWESPA Representative
Mr. Dan Zeigler – AFSCME Representative

Parents

Mr. Adam Dincher – Kindergarten
Mrs. Rachael Gregory – Kindergarten / Grade 3
Mrs. Sara Cronin – Grade 3 / 5
Mrs. Jennifer Rhea – Grade 7 / 11
Mrs. Danielle Fiorini – Grade 9
Mrs. Amy Pregent – Grade 5

Students

Kendall Smith (6)
Logan Harris (8)
Lea Fessler (11)

Key Strategies, Policies, and Procedures

This plan was developed with all required components from the Pennsylvania Department of Education's Preliminary Guidance for Phased Reopening of PreK-12 Schools. Consultation from other sources included:

- Considerations for Reopening Schools – June 2020 REL Mid-Atlantic (PDE sponsored report)
- CDC Guidelines for Childcare, Schools, and Youth Programs – Plan, Prepare, Respond.
- Pennsylvania Department of Education – Resources for School Communities during COVID-19
- PA-DOH / CDC / WHO

Each section contains a Summary Statement that addresses key areas important to students, families, and staff. The Action Plan then delineates each necessary step in YELLOW and GREEN.

Cleaning, Sanitizing, Disinfecting, and Ventilation

Key Questions Considered:

- How will we ensure the building is cleaned and ready to safely welcome staff and students?
- How will we procure adequate disinfection supplies meeting OSHA and [CDC requirements for COVID-19](#)?
- How often will we implement cleaning, sanitation, disinfecting, and ventilation protocols/procedures to maintain staff and student safety?
- What protocols will we put in place to clean and disinfect throughout an individual school day?
- Which stakeholders will be trained on cleaning, sanitizing, disinfecting, and ventilation protocols? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?

Summary:

Regular and proper cleaning of facilities is critical, at all times, to prevent the accidental spread of germs including COVID-19. The South Williamsport Area School District ensures that all facility staff will be properly trained on cleaning and disinfecting procedures identified by the CDC and PA-DOH for COVID-19. Job cards will be reviewed regularly to ensure high-touch surfaces are cleaned at a minimum of once daily. The district will maintain an adequate inventory of cleaning and sanitation products as available. The district, working with local suppliers, is also maintaining a diversity of products in anticipation that shortages will occur in the market.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)

Social Distancing and Other Safety Protocols

Key Questions Considered:

- How will classrooms/learning spaces be organized to mitigate spread?
- How will we group students with staff to limit the number of individuals who come into contact with each other throughout the school day?
- What policies and procedures will govern use of other communal spaces within the school building?
- How will we utilize outdoor space to help meet social distancing needs?
- What hygiene routines will be implemented throughout the school day?
- How will we adjust student transportation to meet social distancing requirements?
- What visitor and volunteer policies will we implement to mitigate spread?
- Will any of these social distancing and other safety protocols differ based on age and/or grade ranges?
- Which stakeholders will be trained on social distancing and other safety protocols? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?

Summary:

Maintaining social distancing and limiting the number of interactions between people is critical to prevent the unanticipated spread of germs including COVID-19. The South Williamsport School District addressed each these in learning spaces, working environments, and congregating areas throughout the district as feasible. To begin, visitation of non-school staff and use of facilities by non-school groups, is restricted. In classrooms, excess furniture was removed to maximize spacing between desks and limit the mixing of students has been reduced where possible. Where adequate social distance cannot be maintained routinely, sneeze-guards will be used. Beyond these measures, where distance or other safety barriers are not feasible, facemasks as recommended by national and state health departments, and as ordered by the Governor, are necessary. Recognizing the amount of teaching and learning that occurs through face-to-face instructions, and the concerns of wearing a mask for extended periods of time, the district has ensured adequate opportunities for students and staff to move, learn, and work without facemasks.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
--------------	---------------------------------	--------------------------------	------------------------------	--	-------------------

<p>Classroom/ learning space occupancy that allows for 6 feet of separation among students and staff throughout the day, to the maximum extent feasible</p>	<p>At the elementary level, schedules will be as static as possible by having the same group of students with the same group of staff.</p> <p>Interactions between groups of students will be eliminated as feasible.</p> <p>To ensure students can participate to the maximum extent possible in learning, the district will operate on a 50% reduced capacity A/B plan. Returning to a normal school day for all students will be evaluated periodically during the school year based on such factors including but not limited to:</p> <ul style="list-style-type: none"> - Rate of community spread - Changes in state or CDC directives on social distance and face coverings - Availability of a COVID-19 Vaccine. <p>Restrict organized events and extracurricular activities to those that can maintain social distancing and reduced capacity.</p>	<p>At the elementary level, schedules will be as static as possible by having the same group of students with the same group of staff.</p> <p>Interactions between groups of students will be limited.</p> <p>Provide maximum distance between individuals in a classroom by spacing desks and removing excess furniture and limit individuals in congregating areas.</p> <p>Limit organized events and extracurricular activities to those that can maintain social distancing and reduced capacity. Capacity not to exceed 250 people.</p> <p>Hold appropriate classes in gyms, auditoriums, other large spaces, or outdoors when possible.</p> <p>Turn desks facing the same direction or have students only sit on one side of the table, spaced apart. Utilize dividers between students.</p>	<p>Building Principals</p>	<p>Desk / table dividers.</p>	<p>N</p>

Monitoring Student and Staff Health

Key Questions Considered:

- How will we monitor students, staff, and others who interact with each other to ensure they are healthy and not exhibiting signs of illness?
- Where, to whom, when, and how frequently will the monitoring take place (e.g. parent or child report from home or upon arrival to school)?
- What is the policy for quarantine or isolation if a staff, student, or other member of the school community becomes ill or has been exposed to an individual confirmed positive for COVID-19?
- Which staff will be responsible for making decisions regarding quarantine or isolation requirements of staff or students?
- What conditions will a staff or student confirmed to have COVID-19 need to meet to safely return to school? How will we accommodate staff who are unable to uncomfortable to return?
- How will we determine which students are willing/able to return? How will we accommodate students who are unable or uncomfortable to return?
- When and how will families be notified of confirmed staff or student illness or exposure and resulting changes to the local Health and Safety Plan?
- Which stakeholders will be trained on protocols for monitoring student and staff health? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?

Summary:

Monitoring individual health and avoiding close contact with others who are sick is essential to prevent the spread of germs including COVID-19. Recognizing that staying home if you are sick is the best approach for all, the South Williamsport Area School District will educate and provide screening resources to students, staff, and families to self-check daily before school. In the event that a person at school presents with COVID-19 symptoms, isolation rooms have been created in each building. If moved to an isolation room, the individual will be sent home and recommended to contact their primary care provider for assistance. Criteria for returning to school

after exposure to COVID-19 follows CDC guidelines. In the event of a positive case in school, the District will work with the department of health to initiate contact tracing and will notify all staff and families as appropriate. Protocol for closing of facilities will be determined in coordination with the department of health and level of community spread.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)

Other Considerations for Students and Staff

Key Questions Considered:

- What is the local policy/procedure regarding face coverings for staff? What is the policy/procedure for students?
- What special protocols will we implement to protect students and staff at higher risk for severe illness?
- How will we ensure enough substitute teachers are prepared in the event of staff illness?
- How will the LEA strategically deploy instructional and non-instructional staff to ensure all students have access to quality learning opportunities, as well as supports for social emotional wellness at school and at home?

Summary:

Older individuals and individuals with underlying health conditions are susceptible to complications from illness including COVID-19. To protect the health and safety of high-risk students and staff, the South Williamsport Area School District will take additional precautionary measures as recommended by the CDC. On a case-by-case basis, these students will meet with their teacher, case manager, pandemic coordinator / school nurse, and principal to discuss how best to provide for their safety and continuity of education. For high-risk staff, the district will work individually with each person to identify the extent of need and take appropriate steps in the workplace. Recognizing the unpredictability of illness, the district has developed tiered responses to student and staff absences. Counselors and other staff are available and trained on the impacts of the global pandemic and how to best support students and staff both socially and emotionally.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
Protecting students and staff at higher risk for severe illness	Identify students and staff with underlying health conditions or age grouping which places them at higher risk of complications from COVID-19. Health and Safety Plan Professional Development

The success of this plan for a healthy and safe reopening requires all stakeholders to be prepared with the necessary knowledge and skills to implement the plan as intended. From the Action Plans above, professional development / trainings will be provided as detailed below. Realizing the fluidity of this situation, additional and review trainings will be added as necessary throughout the school year.

Topic	Audience	Lead Person and Position	Session Format	Materials, Resources, and or Supports Needed	Start Date	Completion Date
Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students and staff.	Custodial / Maintenance Staff	Director of Buildings and Grounds	Staff Meeting w/ handouts	CDC Guidance for Cleaning and Disinfecting Schools	On-going	Prior to start of 2020-2021 School Year
Cleaning, sanitizing, disinfecting, and ventilating school buses / vans.	Bus Drivers	Director of Transportation	Staff Meeting w/ handouts	CDC Guidelines for Cleaning and Disinfecting	Aug 24	Prior to start of 2020-2021 School Year

Health and Safety Plan Communications

Timely and effective family and staff communication about health and safety protocols and schedules is critical. The communications plan below was developed to ensure that all stakeholders have access to the relevant, current, and accurate information to make effective decisions about themselves and their student.

The district will established a **Pandemic Hotline Number** for emergency communications from parents and staff relating to COVID-19. General inquires can be sent through email directly to covid19@swasd.org. The phone and the email are monitored by the Pandemic Coordinator.

Topic	Audience	Lead Person and Position	Mode of Communications	Start Date	Completion Date
2020-2021 District Health and Safety Plan	Staff Guardians Community	Superintendent	Letter to Families	July 20, 2020	July 24, 2020

Health and Safety Plan Summary

This section repeats the summary paragraphs in each action plan above.

Facilities Cleaning, Sanitizing, Disinfecting and Ventilation

Requirement(s)	Strategies, Policies and Procedures
<p>Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students (i.e., restrooms, drinking fountains, hallways, and transportation)</p>	<p>Regular and proper cleaning of facilities is critical, at all times, to prevent the accidental spread of germs including COVID-19. The South Williamsport Area School District ensures that all facility staff will be properly trained on cleaning and disinfecting procedures identified by the CDC and PA-DOH for COVID-19. Job cards will be reviewed regularly to ensure high-touch surfaces are cleaned at a minimum of once daily. The district will maintain an adequate inventory of cleaning and sanitation products as available. The district, working with local suppliers, is also maintaining a diversity of products in anticipation that shortages will occur in the market.</p>

Social Distancing and Other Safety Protocols

Requirement(s)	Strategies, Policies and Procedures
<p>Classroom/learning space occupancy that allows for 6 feet of separation among students and staff throughout the day, to the maximum extent feasible</p> <p>Restricting the use of cafeterias and other congregate settings, and serving meals in alternate settings such as classrooms</p> <p>Hygiene practices for students and staff including the manner and frequency of hand-washing and other best practices</p>	<p>Maintaining social distancing and limiting the number of interactions between people is critical to prevent the unanticipated spread of germs including COVID-19. The South Williamsport School District addressed each these in learning spaces, working environments, and congregating areas throughout the district as feasible. To begin, visitation of non-school staff and use of facilities by non-school groups, is restricted. In classrooms, excess furniture was removed to maximize spacing between desks and limit the mixing of students has been reduced where possible. Where adequate social distance cannot be maintained routinely, sneeze-guards will be used. Beyond these measures, where distance or other safety barriers are not feasible, facemasks as recommended</p>

Requirement(s)	Strategies, Policies and Procedures
<p>Posting signs, in highly visible locations, that promote everyday protective measures, and how to stop the spread of germs</p> <p>Handling sporting activities consistent with the CDC Considerations for Youth Sports for recess and physical education classes</p> <p>Limiting the sharing of materials among students</p> <p>Staggering the use of communal spaces and hallways</p> <p>Adjusting transportation schedules and practices to create social distance between students</p> <p>Limiting the number of individuals in classrooms and other learning spaces, and interactions between groups of students</p> <p>Coordinating with local childcare regarding on site care, transportation protocol changes and, when possible, revised hours of operation or modified school-year calendars</p> <p>Other social distancing and safety practices</p>	<p>by national and state health departments, and as ordered by the Governor, are necessary. Recognizing the amount of teaching and learning that occurs through face-to-face instructions, and the concerns of wearing a mask for extended periods of time, the district has ensured adequate opportunities for students and staff to move, learn, and work <u>without</u> facemasks.</p>

Monitoring Student and Staff Health

Requirement(s)	Strategies, Policies and Procedures
<p>Monitoring students and staff for symptoms and history of exposure</p> <p>Isolating or quarantining students, staff, or visitors if they become sick or demonstrate a history of exposure</p>	<p>Monitoring individual health and avoiding close contact with others who are sick is essential to prevent the spread of germs including COVID-19. Recognizing that staying home if you are sick is the best approach for all, the South Williamsport Area School District will educate and provide screening resources to students, staff, and families to self-check daily before school. In</p>

Requirement(s)	Strategies, Policies and Procedures
<p>Returning isolated or quarantined staff, students, or visitors to school</p> <p>Notifying staff, families, and the public of school closures and within-school- year changes in safety protocols</p>	<p>the event that a person at school presents with COVID-19 symptoms, isolation rooms have been created in each building. If moved to an isolation room, the individual will be sent home and recommended to contact their primary care provider for assistance. Criteria for returning to school after exposure to COVID-19 follows CDC guidelines. In the event of a positive case in school, the District will work with the department of health to initiate contact tracing and will notify all staff and families as appropriate. Protocol for closing of facilities will be determined in coordination with the department of health and level of community spread.</p>

Other Considerations for Students and Staff

Requirement(s)	Strategies, Policies and Procedures
<p>Protecting students and staff at higher risk for severe illness</p> <p>Use of face coverings (masks or face shields) by all staff</p> <p>Use of face coverings (masks or face shields) by older students (as appropriate)</p> <p>Unique safety protocols for students with complex needs or other vulnerable individuals</p> <p>Strategic deployment of staff</p>	<p>Older individuals and individuals with underlying health conditions are susceptible to complications from illness including COVID-19. To protect the health and safety of high-risk students and staff, the South Williamsport Area School District will take additional precautionary measures as recommended by the CDC. On a case-by-case basis, these students will meet with their teacher, case manager, pandemic coordinator / school nurse, and principal to discuss how best to provide for their safety and continuity of education. For high-risk staff, the district will work individually with each person to identify the extent of need and take appropriate steps in the workplace. Recognizing the unpredictability of illness, the district has developed tiered responses to student and staff absences. Counselors and other staff are available and trained on the impacts of the global pandemic and how to best support students and staff both socially and emotionally.</p>
